PHILADELPHIA, MAY 24, 1926.

IMPORTANT SEED LEGISLATION: After May 26th Red Clover and Alfalfa seed imported into this country must be stained with some identifying color. Unadaptable Clover and Alfalfa seed will be stained red. It is hoped that this provision will be so rigidly enforced as to stop the handling in this country of unadaptable seed such as Italian grown Red Clover and Alfalfa seed.

RED CLOVER: Market fluctuations will be governed to some extent by the effect of the new Staining Act. Values on imported seed have advanced. Stocks for summer demand are not large and a firm market is looked upon as a certainty.

TIMOTHY: Buying for summer and fall requirements has opened up. Many are of the opinion that timothy prices are comparatively low.

ALFALFA: Imports, except from Canada, have been negligible, so that the Staining Act may not greatly influence the market. For several years it has been our policy to encourage the use of northern grown U. S. and Canadian grown seed. During the past season we have handled no imported (except Canada) seed.

Prices quoted below are to-day's values f. o. b. Philadelphia. Samples sent promptly upon request. Bags not returnable

ALFALFA { 60 LBS. PER BU. 16-20 LBS. PER ACRE }
